

FISCAL NOTE

HB 2438 - SB 2838

January 30, 2008

SUMMARY OF BILL: Creates the *No Investment in Iran Act of 2008*. Requires the Tennessee Consolidated Retirement System (TCRS) to identify all companies involved in scrutinized business operations with Iran in which the TCRS has direct or indirect holdings, to develop and maintain scrutinized companies lists, to notify such companies in writing, and in certain specified cases, to cease and/or divest investment in such companies. Requires specific periodic reporting to the General Assembly and to the U.S. Presidential Special Envoy to Iran.

ESTIMATED FISCAL IMPACT:

Increase State Expenditures – \$1,875,000/One-Time
\$104,300/Annual Amortized Cost

Other Fiscal Impact - Increase Federal/Other Expenditures:
\$625,000/One-Time
\$34,700/Annual Amortized Cost

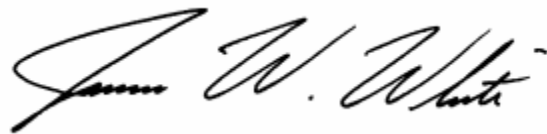

Assumptions:

- “Scrutinized business operations” mean any business operations that have resulted in a company becoming a scrutinized company.
- “Scrutinized company” means any company that meets proposed criteria regarding the company having specified business operations with the Government of Iran.
- One additional position in the State Treasurer’s Office to implement and perform the ongoing provisions of the bill. Such recurring costs are estimated to be \$109,000 per year (\$94,000 for salary and benefits, \$15,000 for communications, supplies, administrative costs, etc.).
- The recurring increase for annual computer enhancements, software upgrades, and software licensing renewals is estimated to be \$30,000 per year.
- The total increase to recurring expenditures is estimated to be \$139,000 (\$109,000 for one position + \$30,000 for computer/software upgrades and renewals = \$139,000) per year.

- The State Treasurer estimates that 75% of such recurring costs (or \$104,300) would be funded with state funds and the remaining 25% (or \$34,700) funded with federal/other funds. Such allocations are based on the distribution of a 75%/25% ratio of the cost for a one percent salary increase.
- The TCRS portfolio contains approximately \$32.0 billion in assets.
- The State Treasurer suggests divestment could represent as much as 2.5% of the TCRS portfolio (or \$800,000,000 in assets).
- The State Treasurer estimates a one-time divestment cost up to \$2,500,000. According to the State Treasurer, there is some indication that TCRS may not hold any prohibited stocks since TCRS is not positioned in emerging markets such as China, which has a presence in Iran. However, based on the experience of other states with different lists and the information available from the Securities and Exchange Commission, the costs could reach as much as \$2,500,000.
- The State Treasurer estimates that 75% of such one-time costs (or \$1,875,000) would be funded with state funds and the remaining 25% (or \$625,000) funded with federal/other funds. Such allocations are based on the distribution of a 75%/25% ratio of the cost for a one percent salary increase.

CERTIFICATION:

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.

A handwritten signature in black ink, appearing to read "James W. White". The signature is fluid and cursive, with the first name "James" written in a larger, more prominent script than the last name "White".

James W. White, Executive Director
